The Flat Earth Society Is Not Stopping any time soon.

In a world where science has long proven the Earth to be round, the Flat Earth Society continues to gain followers. Members of this society claim that the earth is flat and that the idea of a round Earth is nothing but a hoax created by the government and NASA.

The Flat Earth Society's most recent event, held in the town of Shippensburg in the United States, drew in hundreds of participants from across the country. The event featured speakers who presented evidence supporting the flat Earth theory, such as photos and videos that they claim show a flat horizon and a lack of curvature.

Despite widespread ridicule and disbelief, flat Earthers remain undeterred in their beliefs, and they continue to gain attention and support online. The Flat Earth Society's website has attracted thousands of members and supporters, who argue that the truth is being suppressed and that they are the only ones willing to speak out.

While scientists and skeptics continue to argue that the evidence overwhelmingly supports a round Earth, the Flat Earth Society shows no signs of slowing down.

A.- What evidence do flat earthers use to support their theory?

b. Where was the most recent Flat Earth Society event held?

c. How has the Flat Earth Society gained attention and support online?
